Portage Wis.

M. 940. 2. B. C. D.

As per agreement

I'm sending to you four arrow heads from Wis. They are numbered - 1<sup>st</sup> is known as a triangular or war point. Boyette Co. No 2 is a game point from Lake Kinnabago. 3 is arrow found in Mil. County near Cement Mills. No 4 is from place known as Big bud. Wis.

I again want to thank you for those musket balls or shot, can assure you, I appreciate them very much, would very much like to get some of those Soldier buttons from the Kinnabago

fort or gun flints. Well we found that to be the Indian agency house where you directed us. We enjoyed a very agreeable and entertaining day. Probably about 200 people were present, but owing to the limited train time we did not get a chance to again visit the Old Fort Buildings, which we intend to do some time later on.

Respectfully Yours

Paul J. Jors
